

# Top Hat Gas Filters

MWA Technology's Top Hat filters also known as conical filters or Witches Hats are constructed from stainless steel, they protect the downstream control equipment in the system from dirt, debris and any other foreign bodies that may pass through.

## Features

- Top hat gas filters
- To provide protection for gas meters against foreign matter.
- For fitting in between PN16 flanges.
- Suitable for natural gas, LPG, Biogas

### Technical Specification

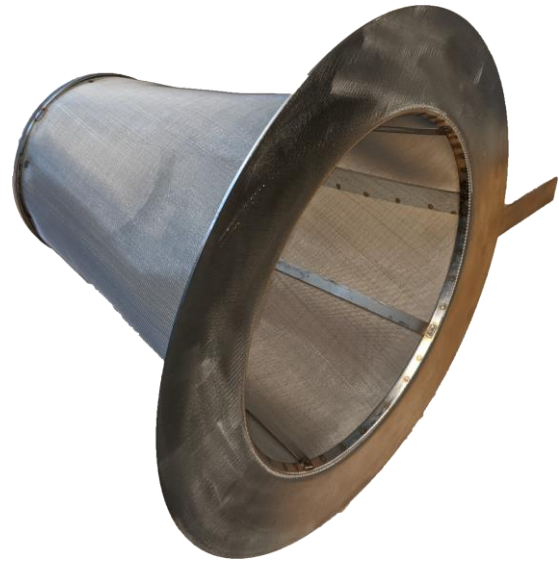

**Material:** Stainless Steel 303

**Filtration Mesh size:** 60

**Filtration Micron Size:** 250

**Media:** Natural gas, LPG, Biogas

**Flow:** In to Out, Out to In, or Bi-Directional

Part number	Description
THF50	50mm gas filter stainless steel 250 microns , length 80mm
THF80	80mm gas filter stainless steel 250 microns , length 125mm
THF100	100mm gas filter stainless steel 250 microns , length 140mm
THF200	200mm gas filter stainless steel 250 microns , length 160mm
THF250	250mm gas filter stainless steel 250 microns , length 270mm
