London's most expensive development contracts MWA for their expertise

MWA Technology were contracted to make vital repairs to the metering system, supplied by a competitor, at the most expensive apartments sold in London; one going for a cool £50 Million.

MWA Technology were called in to a Kensington penthouse flat that, late last year, topped a list of the top 10 most expensive properties in Britain after selling for a cool £50 million, and with a hefty amount of stamp duty of £3.5 million on top!

Situated at the development at 5 Princes Gate, the flat also topped

the list of London's most expensive homes. Incredibly, the Princes Gate apartment costs nearly twice as much as the second most expensive property, a terraced family home in West London which sold for £27 million.

We were called in to make vital repairs to the already supplied metering system. The purchased system that required our immediate attention was a range of Kamstrup meters that needed

“It was a brilliant project to work on, the issue was quickly identified and a solution promptly implemented, with a very happy client at the end.”

to be reprogrammed for accurate flow management and record. MWA offer a specialist service that you don't get with any other metering stockist. We will provide expert technical support at your location, on site to assist you with all your metering installations or individual product knowledge requirements.

A MWA metering expert is available to work in partnership with you for onsite training, technical issues and project development, whether on site or at your client's location.

We will provide you with feedback and advice on a variety of products, services and ideas. Get in touch with us via phone on **0121 327 7771**, or email us at **sales@mwatechnology.com** and just simply tell us what you need and let us do the rest.
