

# V200 & V210 Hybrid

Wireless Mbus 868MHz

Volumetric Cold Water Meters DN15 to DN40

## Application

Introducing the V200 and V210 Hybrid, combining the high accuracy and extended flow range of the V200 family of water meters, with the latest advances in intelligent metering system capabilities.

The integrated open standard M-Bus (EN13757-4) radio communication makes data collection easily adaptable for every system provider. An OMS compliant telegram completes this interoperability.
